Primošten is a small picturesque town situated between Šibenik and Trogir, in the central part of the Adriatic coast and surrounded by seven other islets, a wonderful site and a beautiful place to explore. Leaving Hvar we will have an early morning cruise towards Biševo island to visit the Blue Cave (optional), a magnificent natural phenomenon on the islet Biševo just in front of the town of Komiža. As sometimes weather conditions can be very unpredictable, the possibility of our visit will depend on those conditions, however you will be notified of this on time. Afterwards cruise towards Komiža with swim stop and lunch on board. Komiža is located in a deep bay on the western side of the island Vis below the 600 meter high mountain Hum. It is a typical Mediterranean village, which attracts the tourists with beautiful beaches and with narrow roads and houses squeezed together around the harbour. Also, it is a village where the fishing on the eastern side of the Adriatic Sea was born. Komiža has always been proud of the fisherman's history, whose remains can be found in the Fisherman's museum located in the old Venetian tower on the promenade (riva), the only one in Croatia. Your evening is free in Komiža.
